Our energy working for you.™

Description

The KTA38-Series benefits from years of technical development and improvement to bring customers an innovative and future proof diesel engine that keeps pace with ever changing generator set requirements.

Recognized globally for its performance under even the most severe climatic conditions, the KTA38-Series is widely acknowledged as the most robust and costeffective diesel engine in its power range for the generator set market.

This engine has been built to comply with CE certification.

This engine has been designed in facilities certified to ISO9001 and manufactured in facilities certified to ISO9001 or ISO9002.

Features

Aftercooler - Large capacity after cooler results in cooler, denser intake air for more efficient combustion and reduced internal stresses for longer life.

Fuel System - Cummins exclusive low pressure PT™ system with wear compensating pump and integral dual flyweight governor. Camshaft actuated fuel injectors give accurate metering and timing. Fuel lines are internal drilled passages in cylinder heads. Spin-on fuel filter.

Cooling System - Gear driven centrifugal water pump. Large volume water passages provide even flow of coolant around cylinder liners, valves and injectors. Bypass thermostats regulate coolant temperature. Spin-on corrosion resistors check rust and corrosion, control acidity and remove Impurities.

Cylinder Block - Alloy cast iron with removable wet liners. Cross bolt support to main bearing cap provides extra strength and stability.

Turbocharger - Cummins Turbo Technologies (CTT) exhaust gas driven turbocharger mounted at top of engine provides more power, improved fuel economy, altitude compensation, and lower smoke and noise levels.

Service and Support - G-Drive products are backed by an uncompromising level of technical support and after sales service, delivered through a world class service network.

General Engine Data

Туре	4 cycle, Turbocharged and After-cooled				
Bore mm	159				
Stroke mm	159				
Displacement Liter	38				
Cylinder Block	12-cylinder, direct injection, 4-cycle diesel engine				
Battery Charging Alternator	35A				
Starting Voltage	24V				
Fuel System	Direct injection, EFC (Electric Fuel control) governor				
Fuel Filter	Dual spin on paper element fuel filters				
Lube Oil Filter Type(s)	Spin on full flow filter				
Lube Oil Capacity (I)	140				
Flywheel Dimensions	SAE 0				

Coolpac Performance Data

Cooling System Design	JWAC			
Coolant Ratio	50% ethylene glycol; 50% water			
Total Coolant Capacity (I)	218.5			
Limiting Ambient Temp (°C)**	50 (50Hz)	56 (60Hz)		
Fan Power (kWm)	20 (50Hz)	35 (60Hz)		
Cooling System Air Flow (m ³ /s)**	18.7 (50Hz) 24.4 (60Hz)			
Air Cleaner Type	Dry replaceable element with restriction indicator			

** @ 13 mm H₂0

Ratings Definitions

Emergency Standby Power (ESP):

Applicable for supplying power to varying electrical load for the duration of power interruption of a reliable utility source. Emergency Standby Power (ESP) is in accordance with ISO 8528. Fuel Stop power in accordance with ISO 3046, AS 2789, DIN 6271 and BS 5514.

Limited-Time Running Power (LTP):

Applicable for supplying power to a constant electrical load for limited hours. Limited-Time Running Power (LTP) is in accordance with ISO 8528.

Continuous Power

Applicable for supplying power to varying electrical load for unlimited hours. Prime Power (PRP) is in accordance with ISO 8528. Ten percent overload capability is available in accordance with ISO 3046, AS 2789, DIN 6271 and BS 5514.

Base Load (Continuous) Power (COP):

Applicable for supplying power continuously to a constant electrical load for unlimited hours. Continuous Power (COP) in accordance with ISO 8528, ISO 3046, AS 2789, DIN6271 and BS 5514.
